Primary Examiner, Art Unit 2611

1. The Amendment filed on 1/16/2007 has been entered. Claims 1 and 3-29 are pending in this Office action.

2. Claims 1 and 3-29 have been renumbered as claims 1-28, respectively.

### ***Response to Arguments***

3. Applicant's arguments, see Applicants' Remarks, filed on 1/16/2007, with respect to claims 1, 3, 8-10, 19-21 and 26-29 have been fully considered and are persuasive. The rejection of claims 1, 3, 8-10, 19-21 and 26-29 has been withdrawn.

### ***Reasons for Allowance***

The following is an examiner's statement of reasons for allowance:

4. Regarding claim 1, claim is allowable over prior art of record after Applicants persuasively point out the patentably distinct features over Li et al. reference (US Patent 6,587,526) "processing the signal sample to suppress on channel interference and provide a processed sample" and "determining the delay parameter by comparing the processed sample to a predetermined sample".

5. Regarding claim 11, claim is allowable over prior art of record because the cited reference, either singularly or in combination, cannot teach or suggest a method

for estimating a parameter associated with a received signal in a wireless receiver as set forth in the application claim.

6. Regarding claim 19, claim is allowable over prior art of record after Applicants persuasively point out the patentably distinct features over Li et al. reference (US Patent 6,587,526) "processing the signal sample to suppress on channel interference and provide a processed sample" and "determining the delay parameter by comparing the processed sample to a known sequence".

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
